Re: Motion For Reconsideration, Biggins v. Minner, et al., C.A. No. 08-04-GMS

Your Honor:

Please find attached to which I respectfully ask to be considered with my current pending motion in the above captioned matter. I my status now that once again affects my daily life due to the pain and suffering from not having medication for my multiple back and spine conditions. Despite the defendant's declaration, it is obviously clear that their assertions are not accurate. Pam the new Quality Control Monitor for Correctional Medical Services, came and assessed my medical file with me today at about 1:15 pm, May 12, 2008. With regards to my current situation of having no pain relief medications. She said that my medical records showing that Dr. Desorries only wrote the prescription for 30 days. Note that the attached exhibit p. 2 illustrates that I had been informed that I don't need to see the doctor again until 6-3-08. The question must be ask why didn't she prescribe my meds for the length of that period. Mes Pam, further informed me that she was going to try to see Dr. Desorries about seeing me when she returned to the main compound when she was done. But, informed that she wasn't making any promises as to how long it would be, before she could see me. Being that they only have 1 physician to treat all 1000 inmates over here, between 24 housing units

Thank you for your time, sir.

 Re: Denial of Prescribed Medications

C.A. No. Biggins v. Minner, et al., 08-04-GMS

Dear Mr. Moore,

I've attached hereto as courtesy and convenience a copy of my March 28, 2008 sick call regarding not being dispensed accordingly daily medications allegedly prescribed for my chronic care treatment in dealing with my back conditions. Please note sir, that you're medical personnel responding by information despite the facts! I had last been seen 3-3-08 and was renewed for (Tylenol 3 and Robaxin). At least that's what's stated as last prescriptions ordered by Dr. Desoriers, and that those prescriptions did not expire until 6-3-08, my next scheduled chronic care appointment. The problem is again sir, I'm sitting here suffering having not been distributed Tylenol 3 since Friday, May 9, 2008, four days ago. And haven't received my Robaxin since January 2008. My Multi Vitamins were discontinued, despite my need for Sickle-Cell. Sir, are your jobs really that difficult? Or is this specialized treatment designed especially for me!

Signed, very concerned.
